## BLOGS

•Why you should start using Next.js in 2021.

## EDUCATION

### JADAVPUR UNIVERSITY
Bachelor of Engineering
CGPA 8.18
July 2018 - Present
Kolkata, India

### VIDYAPATI COLLEGE
XII from B.S.E.B.
2017
Bihar, India

### ST. JOSEPH'S
X from C.B.S.E.
CGPA 10 - 2015
Bihar, India

## INTERNSHIPS

### QUINENCE | Frontend Developer
Dec 2021 – Jan 2022 | Singapore - Remote
- Built **NFT** gift card platform **Neokard**.
- Used **Next.js**, **TypeScript**, **Tailwind**, **Supabase**.
- Built frontend for **WishWorld**.

### DIGIMALL | Flutter Developer
Feb 2020 – May 2020 | Gurugram - Remote
- Developed and released **the DigiMall** app.
- Added **location-based data fetching** strategy to show nearby stores.
- Fixed many major bugs and delivered **99% Crash-Free** app to Play Store
- Worked on lightweight **PWA**, built with **React**.

### ACTINIDE LTD. | React Developer
July 2020 – Oct 2020 | London, UK - Remote
- Developed **Assistroo**, a quiz app made with react.
- Used **Firebase** as BaaS and **redux** as a state management solution.
- Used **material-ui** for Material Design react components.
- Headed a team of three developers.

## PROJECTS

### PROJECTGRAM | Visit | Source Code
ProjectGram is **Full-Stack, Open-Source** portfolio-based platform to share that side project of yours with the World.
Technologies Used:
- Frontend - **Next.js (React) and Chakra UI**
- Backend - **NestJS (Express)**, Database - **PostgreSQL**
- 100% TypeScript

### JUMS REBOOT | Download App | Source Code
An app for Jadavpur University students to get their Admit cards, Grade cards, exam routines, etc. instantly. **500+ Downloads and 5.0 Stars** on Google Play Store.
Technologies Used:
- Flutter
- **NodeJS, ExpressJS** for backend server. Deployed on **Heroku.**
- **Puppeteer** for running headless chrome in backend for scraping data.
- **Codemagic** for **Continous Deplyoment**

### SAFECHAT | Try it! | Source Code
A community-based chat app. Always stay connected with your communities.
Technologies Used:
- Next.js with 100% TypeScript | ChakraUI for styling.
- Firebase as BaaS
